

GYPSEMNA

**HEX HEAD
SCREWS**

FIXING COMPONENTS

■ DESCRIPTION

Hex Head Screws have self drill Tips that are zinc plated for heavy gauge Metal to Metal fastening. Comes in a variety of coatings, such as Yellow or White Zinc, also comes in a Black phosphated finish, all to protect against rust and corrosion.

■ BASIC USES

Hex Head Screws is applicable for Partition, Liner & Cinema Systems.

Sizes (mm)

- M4.8 * 19DP
- M4.8 * 25DP
- M4.8 * 32DP
- M4.8 * 50DP
- M5.5 * 25DP
- M5.5 * 32DP
- M5.5 * 50DP

■ ADVANTAGES

- Hex Heads equipped with self drilling tips.
- Hardened Steel material for heavy gauge Metal to Metal fastening.
- Anti-Corrosion treatment and Rust protection.

■ TECHNICAL DATA

PHYSICAL PROPERTIES

Standard Compliance	AS 3566 - 1988 / ASTM C 1002 - 98
Material	Hardened Steel
Coating	Yellow / white Zinc / Black Phosphated Finish
Rust Protection	Anti-corrosion treatment

■ PERFORMANCE DATA

Size	mm	Φ4.8	Φ5.5
Ultimate tensile capacity of the screw	kN	7.2	9.8
Ultimate shear capacity of the Screw	kN	5.6	8.4
Surface hardness	HV	≥ 500	≥ 500
