Product Portfolio

A photograph of a modern interior space. In the foreground, a curved, light-colored leather sofa is partially visible. The background features a dark, textured wall. Two large, bright, rectangular light sources, possibly windows or large lamps, cast strong, warm light onto the wall and the sofa, creating sharp shadows and highlighting the textures of the wall and furniture. The overall mood is sophisticated and contemporary.

Your environment
reflects who you
are. Make it vibrant,
make it Oasis.

Muted rose

The background of the entire image is a dark, textured surface, possibly leather or a similar material, with a gradient from deep black on the left to a dark brown on the right.

Viero
DECORATIVES

Viero offers a versatile range of acrylic and lime-based finishes, each with distinct textures and aesthetic appeal. These finishes are designed for specific applications, employing specialized techniques to enhance interior and exterior surfaces.

Allure

Allure is a decorative metallic interior paint, easy to apply and versatile in textures and colours. Its fine glass sand creates elegant effects with gold or silver reflections.

Gold

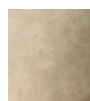

Application Tools: Brush (spalter)

Use a plastic spatula to distribute any build-up of product.

Ghibli

With calibrated quartz sand, it creates soft movements and refined matt textures, inspired by the Sahara's shaping winds.

GH98

Application Tools: Soft Bristle Brush (spalter type) Stir thoroughly before application.

Vieroplast

Vieroplast enables personalized textures, from trowelled to ribbed, creating unique material-like finishes.

Application Tools: Stainless Steel Trowel

PLA14

Marmorin

Marmorin, a lime-based plaster for interiors and exteriors, offers breathability, colour stability, and a natural look. Eco-friendly and ideal for restoring historic buildings.

Application Tools: Stainless Steel Spatula

MM47

Marmorin Hydro

Marmorin Hydro is a slaked lime marmorino with hydrophobic additives, offering water repellence and a sophisticated matte marble-like finish.

Application Tools: Stainless Steel Spatula

Marmorin Extra

Marmorin Extra, made from aged lime putty, creates translucent smooth or textured finishes, ideal for restoring historic buildings.

Application Tools: Stainless Steel Spatula

MM15

MM10

Marmorin Sand

Marmorin Sand, a slaked lime plaster with natural sand, offers an eco-friendly translucent finish with a smooth, shaded, salt-and-pepper effect.

Application Tools: Stainless Steel Spatula

MM19

Marmorin Satin

Medium-grain lime-based Marmorino with a smooth satin marble finish, ideal for historic buildings with ornamental features like cornices and pilasters.

Application Tools: Stainless Steel Spatula

1013
Oyster white

Travertine

Travertine, made with lime putty, marble sands, and natural pigments, mimics classic limestone with excellent breathability and mold resistance.

Application Tools: Stainless steel spatula, then pass with a honeycomb sponge roller.

Mushroom

Viero Vel

Viero Vel is a water-resistant matt glaze for Viero products, offering a cloudy finish while maintaining vapor permeability.

Application Tools: Brush, sponge, glove & pad.

L 105

L105 is a ready-to-use synthetic resin emulsion that enhances gloss, provides protection, and adds water repellence while maintaining vapor permeability. Suitable for interiors and exteriors.

Application Tools: Spatula

Aqua Protection

Aqua Protection is a transparent, UV-resistant finish for mineral and acrylic surfaces, preserving the natural look of lime-based products.

Application Tools: Short-hair roller

NaturWax Eco

NaturWax Eco, a blend of natural waxes, adds shine and water protection to lime finishes like stucco veneziano. Free of latex and resins, it preserves vapor permeability.

Application Tools: Soft Cloth, brush, spatula
Soft cloth polishing.

OLTRE | Beyond Boundaries

Seamless decorative wall and floor system

OLTRE is a joint-free, seamless floor and wall decorative system that creates a harmonious sense of visual continuity in the spaces where it is applied.

OLTRE perfectly satisfies the technological, performance and design needs of architects and engineers, and can be used in a wide range of contexts:

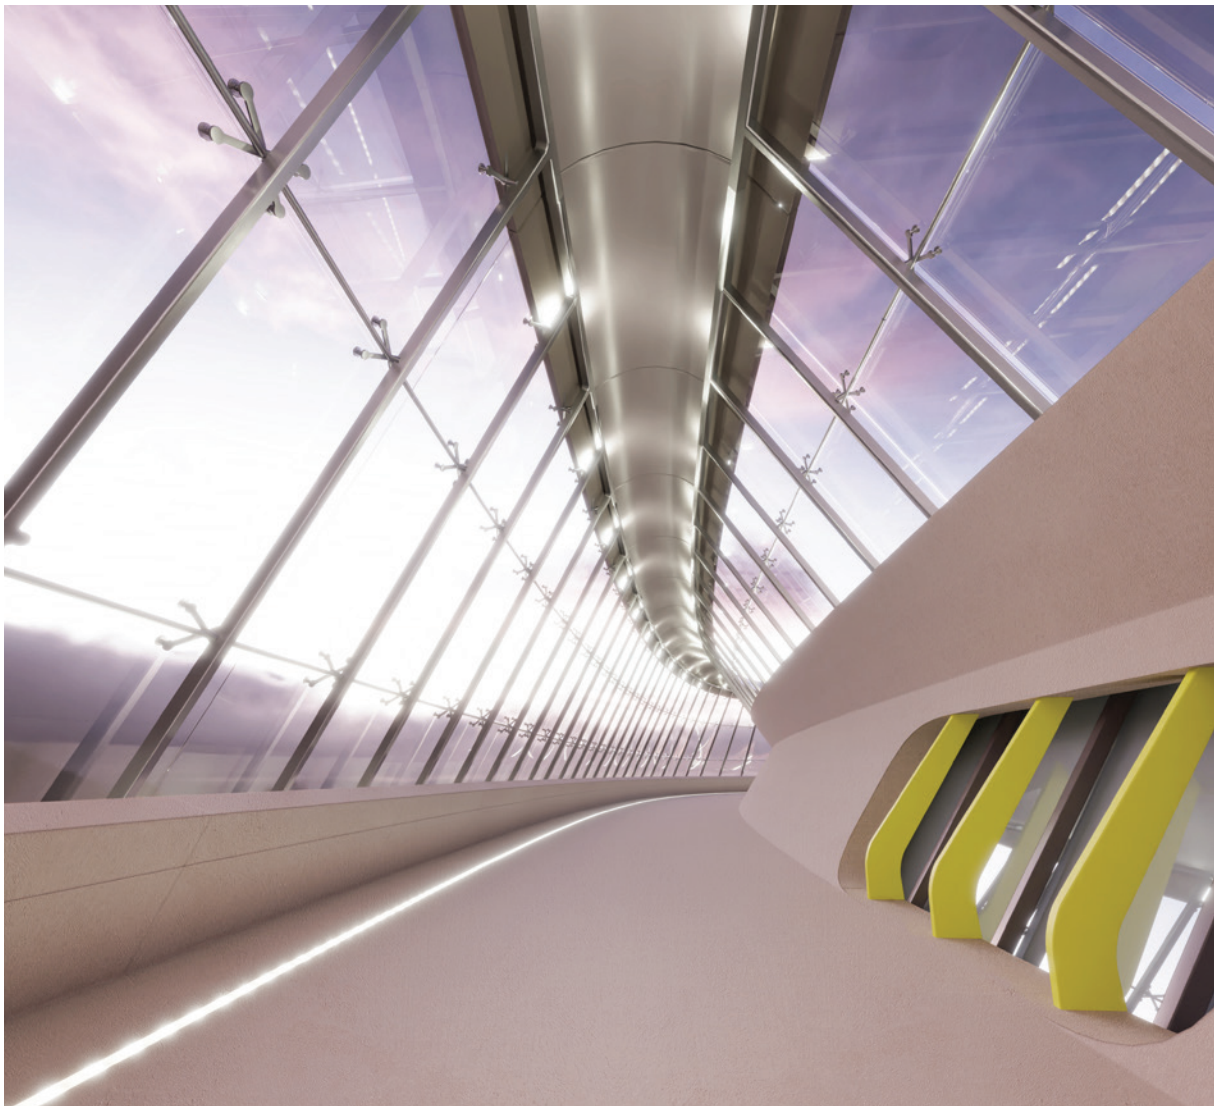

Commercial

Residential

Business

Hospitality

Dedicated to wellness

OLTRE is available in two effects:

Polished

Trowelled

In the right light, with
the right paint, everything
is extraordinary.

Functional

Our meticulously curated selection of functional products is designed to optimize the performance of top coats, significantly enhancing their strength and durability. This range includes high-quality primers and stucco among other essentials, each crafted to provide a robust foundation that ensures long-lasting protection and impeccable finish.

Elevate the effectiveness of your top coats with our proven solutions, guaranteeing superior results for every application.

Oasis Interior Stucco

Oasis Interior Stucco is a high-solid, emulsion-based putty offering excellent filling, coverage, and sandability for a smooth finish over light surface undulations.

Oasis Exterior Stucco

Oasis Exterior Stucco is a high-solid, emulsion-based exterior putty that offers excellent filling, coverage, and a smooth base for subsequent coats, covering minor surface imperfections with limited sandability.

Block Filler

Block Filler is an acrylic-based emulsion putty designed to fill and level porous surfaces. It can be applied up to 10 mm thick, offering strong adhesion, low shrinkage, and a tough, non-sandable finish.

PVA Primer

PVA Primer (water-based) is an emulsion-based primer and sealer for interior masonry, offering excellent alkali resistance on cured plastered surfaces.

Redox Primer 53

Oasis Redox Primer 53 is a synthetic alkyd resin based rust preventive primer containing iron oxide pigments. Does not contain any added mercury.

Tex Primer

Tex Primer is a fine-textured, acrylic-based emulsion primer for textured finishes, offering excellent adhesion, coverage, and the ability to hide surface imperfections on both old and new surfaces.

Aluminum Paint (G.P)

Aluminum Paint is an alkyd-based, lead-free paint providing a glossy, weather-resistant metallic finish, usable alone or over an alkyd system.

Road Marking Paint

Road Marking Paint is a quick-drying alkyd-based paint for marking curbs, parking lines, and road maintenance.

High Build Traffic Paint

High Build Traffic Paint is a quick-drying, durable paint made from alkyd and chlorinated rubber resins, UV-resistant and ideal for traffic lines and thermoplastic road marking maintenance.

Epoxy Primer

Epoxy Primer is a two-pack primer with excellent adhesion, penetration, and strong resistance to water and chemicals.

Epoxy Zinc Phosphate Primer

Epoxy Zinc Phosphate Primer is a two-pack primer offering corrosion protection for sand-blasted steel structures, truck bodies, and OEM equipment.

Epoxy Texcoat

Epoxy Texcoat is a two-pack epoxy high build texture intermediate coating designed to give spatter finish. It can be over-coated with Oasis Polyurethane Finish.

Epoxy Filler

Epoxy Filler (solvent-free) is a two-pack, non-shrink epoxy mastic designed for filling irregularities in concrete and steel. It contains 100% solids, ensuring no shrinkage after application.

Epoxy Surface Filler

Epoxy Surface Filler is a two-pack epoxy- based filler/putty for concrete and masonry surfaces.

Wood Primer

An alkyd-based primer that seals wood, creating a smooth base for undercoat and topcoat. Suitable for all timber types.

Polyurethane

Polyurethane is a two-pack, high-performance topcoat with superior resistance to water, salt, and corrosion. Cured with aliphatic isocyanate, it resists yellowing.

Undercoat

An alkyd-based undercoat with high opacity and smooth leveling for an even topcoat surface. Lead-free.

Penetrating Sealer (W.B)

Penetrating Sealer (water-based) is an acrylic sealer with excellent penetration properties.

Penetrating Sealer (S.B)

Penetrating Sealer (solvent-based) is an acrylic sealer with excellent penetration properties.

Acrylic Primer

Acrylic Primer is a water-based, alkali-resistant acrylic primer for masonry and plaster. It offers strong adhesion and penetration, ensuring a solid base for topcoats.
